## Log Style Camels for San Diego Naval Base Pier 12

Owner: San Diego Naval Base

Engineer: Ben C. Gerwick, Inc.

Contractor: Manson Construction, Co.

Harbor Technologies, LLC was chosen to supply forty-two composite log style camels as the secondary fendering units along the Navy's new aircraft carrier pier. HarborCamel was chosen as it has excellent flotation characteristics and energy absorption properties. These camels were offered with an eyebolt style mooring attachment, although traditional hawse pipes are available as well.

Forty-two (42) camels were supplied in lengths of 50' and 24"  $\emptyset$ .

Camels with Eyebolt Style
