

TANGENT™

MARINE MATERIALS

When it comes to alternative materials,
there's no alternative.

Marine Performance:

For nearly 30 years, Tangent materials have been the longest-lasting solution in the marine industry. Providing long-term strength and durability, our products outperform traditional marine materials.

Our structurally-engineered marine-grade plastic lumber resist water, mildew, moisture, and chemicals. Impenetrable to marine borers, Tangent materials are a low-maintenance solution that **stands up to whatever nature throws at them.**

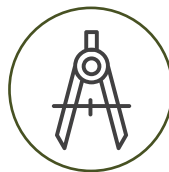

PRODUCT VERSATILITY

- Bridge Fenders
- Marine Fendering
- Marine Decking
- Dolphins
- Piles
- Navigational Aids
- Docks & Piers
- Substructure

EXCEPTIONAL STRENGTH

The most durable, impact-resistant materials available.

ENGINEERED SOLUTIONS

Tailored products that deliver on customer needs.

ENVIRONMENTALLY-FRIENDLY

Made from recycled materials and won't leach toxins.

Where strength meets durability.

Throughout our rich history, Tangent has built a reputation for manufacturing the strongest recycled HDPE materials in the industry. It's a reputation that we've earned with precision engineering, unique manufacturing techniques, and material driven science.

Product Families

MOLDED

- Stronger than continuously extruded with extensive range of applications

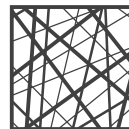

CONTINUOUSLY EXTRUDED

- Available in any length
- Combines function and aesthetics
- Co-extruded skin allows dimensional stability, color flexibility, and embossing

Engineering Options

FIBER

- Fiberglass filaments increase flexural strength & reduce expansion and contraction

BAR

- Fiberglass rebar reinforcement further enhances stiffness and strength

CUSTOM

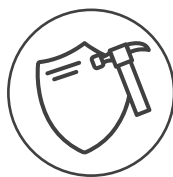

- Custom-tailored formulations to meet specifications
- Available reinforcement, fire-retardant or UV-resistant additives

Providing unrivaled products of unmatched strength and durability, we offer customized products to suit your specific application.

Let's get to work.

DURABLE

Our products will not splinter, crack, chip, peel or rot and are impervious to insects.

LOW-MAINTENANCE

No painting, staining, or waterproofing required.

COLOR STABLE

Rich colors stay brilliant thanks to built-in UV protection.

EASY TO CLEAN

Our products do not stain and are easily cleaned with soap and water.

Environmentally-Friendly Products

Tangent™ proudly manufactures plastic boards using recycled HDPE plastic. We also use a closed loop manufacturing process that produces minimal greenhouse gases.

Our green materials are recyclable.
